

Diamond Plate Anti-Fatigue

9/16" or 1" Anti-Fatigue Matting

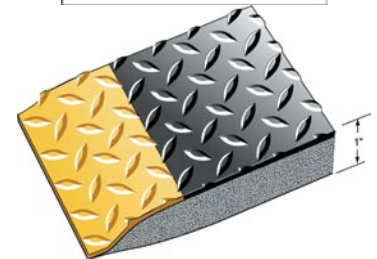

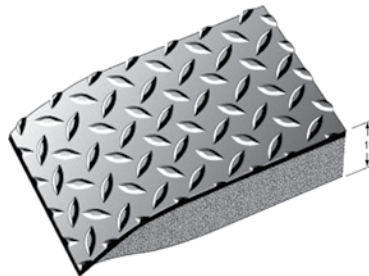

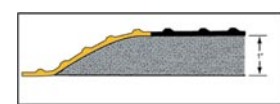

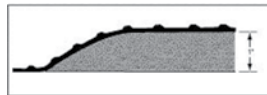

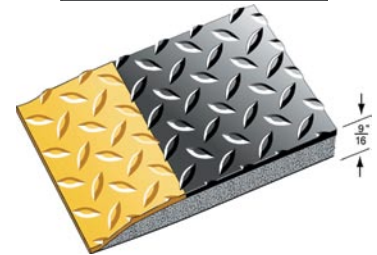

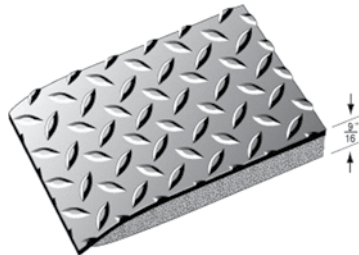

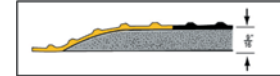

- Diamond Plate Anti-Fatigue matting is the benchmark for comparison to all other industrial anti-fatigue mats.
- This strong performer suffers no deterioration from weathering and ozone exposure and is self extinguishing when tested in accordance with FMVSS-302.
- These mats offer excellent durability following exposure to many organic and inorganic industrial chemicals.
- Diamond Plate Anti-Fatigue far exceeds the competition with it's closed cell polymeric sponge base that produces the incredibly soft and resilient rebound properties needed in a rigorous manufacturing environment.
- This industrial standard is available in two styles. A heavy duty 9/16" thick or a super duty full 1" thick product.
- Both styles are available in individual mats or full roll lengths of 24", 36", 48", 60", 72" and 96" widths.

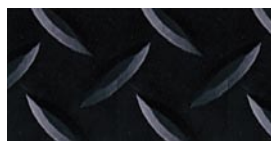

Product Specifications

Construction:	Heavy Duty Diamond Plate Surface
Backing:	Closed Cell Polymer Sponge
Edging:	Beveled Edging
Thickness:	9/16" or 1"
Surface:	Diamond Plate Surface
Durability:	8 ●●●●●●●○
Warranty:	1 year
Order Time:	2 week

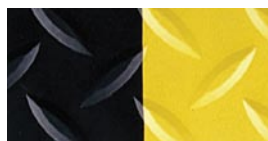

Available in two thicknesses
9/16" and 1"

Diamond Plate Colors

Solid Black

Black/Yellow

Solid Gray

Gray/Yellow

SIZES

Standard: 24" x 36", 36" x 60"

Roll: 2' x 75', 3' x 75', 4' x 75', 5' x 75'

Custom: 2', 3', 4', 5' width by custom lengths to 75 lin. ft. in one foot increments. 6' and 8' widths available w/ visible seam running the length on the mat. 5'- Solid Black and Black/Yellow only 6', 8'- Solid Black only
